Profile

Web Applications Developer with 5+ years of relevant experience developing Full Stack applications in the Technology, E-commerce and Education Industry. For me, technology is a tool leveraged to deliver on Business requirements and User Experience. I find satisfaction in writing clean, tested and quality code. I also take pride in my excellent communication skills.

Professional Experience

- 09/2021 – present **Software Engineer, Frontdoor, Inc.** 📁
- Took complete ownership of the Shortlink Microservice to reduce latency and improve performance by 55%, migrate database for better design of the event-driven system.
- Tech: Golang, Kafka, Redis, MongoDB, REST, Reactjs
- 07/2020 – 08/2021 **Online Course Instructor, Skill Lync** 📁
- Educator (1 year 2 months)
- Developed Full Stack Web Technology Courses and supported students to be Job-Ready
- Tech: Front End Development, Data Structures and Algorithms using Java and Python, Advanced Databases, Java BackEnd Programming
- 11/2020 – 01/2021 **Software Engineer, Recursive Lambda** 📁
- DevOps Engineer (~2 months)
- Setup infrastructure on Google Cloud Platform using Infrastructure As Code (Terraform) to run a Docker Containerised Python Flask app.
 - Built CI/CD pipeline on Gitlab to deploy on different environments.
- 09/2016 – 04/2021 **Full Stack Applications Developer & Instructor, AMU** 📁
- Technical Assistant (Computer) - (~2 years relevant as a Full Stack Engineer)
- Internal Quality Assurance Cell (IQAC) Role: Project Lead (Team size- 4)*
- Owned end-to-end deliverables individually of software applications from feature discussions, requirement gathering, release milestone planning to designing then coding, testing, debugging, documentation, deployment and maintenance.
 - Suggested practical and scalable solutions which improved efficiency of processes of a 15 persons team by more than 80%.
 - Proactively became first point of contact for software adoption by the 2000+ users.
 - Reduced requests to the Director, IQAC by 75% by becoming subject matter expert
- Other responsibilities (~2 years)*
- Boosted practical learning of 600+ students with improved Curriculum and Teaching for Programming and Web Technology projects
- 01/2015 – 06/2016 **Web Consultant, Maroof Consultancy**
- Swag of India.* (~ 1.5 years)
- Role: Core team member (Team size- 6)
